Introduction

My name is Brenda Mohney and I am the founder of the internet marketing company, Azure Web Solution. We offer a wide variety of online media solutions including, but not limited to web design, SEO, video marketing, press releases, content creation & reputation management. In a nutshell, we help small to medium sized business owners get more clients, generate more money and slash their advertizing costs by as much as 50%, by using the internet.

Due to overwhelming feedback and market demand, we are in full expansion and looking to hire performance based sales reps, to service the Southern Pennsylvania local area. This is a great opportunity for the right person, but unfortunately places are limited.

About the Position

The main role of the Internet Marketing Sales Rep is to contact local business owners (by phone, face to face or by email) and offer our internet marketing services to help them get more customers that are looking for them online. Although, technically this is a sales position, the approach is really more of an education to the potential clients. Once the business owner's see the benefits of our services, they practically sell themselves.

As mentioned above, this is a performance based position and does not come with an hourly wage. We are really looking for people that want to earn a substantial income and not have a ceiling on their earnings of just a few bucks per hour. You will be acting as an independent contractor and not as an employee of Azure Web Solution. You will also be responsible for reporting your taxes and revenues at the end of the year.

Compensation: How Much Do You Get Paid?

Ok ... Now on to the good stuff. You want to know how much you will get paid. We have a two part commission structure which offers payments now as well as a residual income that will continue to pay you month after month as long you are stay active with the company. Here is the compensation plan:

40% commissions on all sales that you generate

15% on monthly residual payments from client

So How Much Can You Actually Make?

What's great about the compensation plan is that not only can you earn money today, but you are building a long term business of sorts with the ongoing monthly residuals. Our basic packages sell for \$497 + \$197 monthly charge. What this means for you is that for every sale, you earn nearly \$200 and \$30 (residual) each month per client. Let's have a look at a hypothetical example of what you may earn.

For this example I'm going to assume that you are only working part time and only able to generate 20 new clients per month (1 per day – 20 working days). Obviously this is not a guarantee of income as what you put in is what you get out. You will earn more or less depending on your efforts.

20 New Clients X \$200 (40% Commissions) = \$4000

20 New Clients X \$30 (15% Commissions) = \$600

*** Please note that commissions have been rounded to whole dollars for easier calculations

Month 1:	\$4,000 + \$600	\$4,600
Month 2:	\$4,000 + \$1,200	\$5,200
Month 3:	\$4,000 + \$1,800	\$5,800
Month 4:	\$4,000 + \$2,400	\$6,400
Month 5:	\$4,000 + \$3,000	\$7,000
Month 6:	\$4,000 + \$3,600	\$7,600
Month 7:	\$4,000 + \$4,200	\$8,200
Month 8:	\$4,000 + \$4,800	\$8,800
Month 9:	\$4,000 + \$5,400	\$9,400
Month 10:	\$4,000 + \$6,000	\$10,000
Month 11:	\$4,000 + \$6,600	\$10,600
Month 12:	\$4,000 + \$7,200	\$11,200

Again, the above example is just an illustration, but I'm hoping that you can see that this is much more than just a sales job. By using the above example, after just one year you would have built up 240 new clients of which you would be receiving \$30 on each of them per month.

That's **\$7,200 or \$86,400 annually** just on existing clients and doesn't take into account new clients that you generate going forward as well additional services sold to existing clients, performance bonuses and sales contest that may be run throughout the year.
